

# PROJECT UPDATE JOHN WEARN RESERVE

January 2020

Net climber

Teepee and tunnel

Balancing structure

## **i** PROJECT OVERVIEW

The Contractor has made significant progress with the installation of concrete retaining walls, hit up wall, futsal/basketball hoops and a netball ring in the multi-use court. All play equipment items have been installed in the playground, including totem poles, multiplay tower, swingset, balancing structure, spider net climber and teepee.

## **SKATEPARK CONSTRUCTION**

Skatepark works are currently underway, with excavation complete. The Contractor will continue to install steel formwork and pour concrete for the skate park.

## **STAGE CONSTRUCTION**

The Contractor has begun excavating for the proposed stage and terrace amphitheatre seating which will include lighting and future opportunities for outdoor concerts.
