ABOUT CARE FACTOR

Care Factor lets your community identify what is most important to them about their local centres, main streets and malls. By quantifying the attributes that are most valued by your community and its sub-groups, you are able to plan improvement investment more effectively and measure change over time.

METHODOLOGY

Participants were asked to complete an online survey rating the attributes of local centres, main streets and malls in terms of their positive contribution to their personal experience of these types of places. This report captures the findings of the survey and presents how your community is aligned and where values may differ between groups.

EPPING (EAST)

CITY OF PARRAMATTA, NSW, AUSTRALIA

Epping (east of the Northern train line) is located in the Parramatta LGA.

WHAT WE CARE ABOUT

RANK ATTRIBUTE

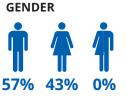

Across the five categories of place, your community ranks these as their top ten attributes contributing to positive place experience:

with 60% of men value 'Ease of walking around' as one of the most important attributes that make a place enjoyable to them

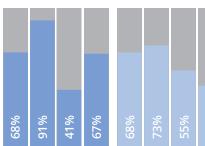

59% of residents compared with 73% of students value 'Walking, cycling or public transport options' as one of the most important attributes that make a place enjoyable to them

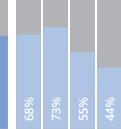

BY AGE

How do your different age groups value the top three attributes overall?

0-24 25-44 45-64 65+ 0-24 25-44 45-64 65+

Cleanliness of public space

SENSE OF WELCOME

Sense of safety (for all ages, genders, day/ night etc.)

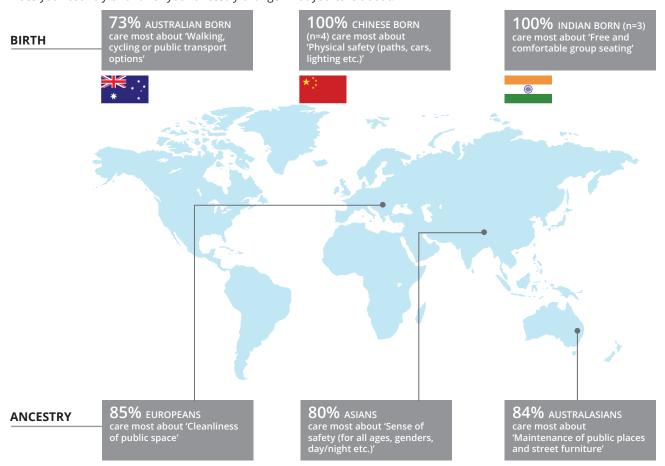

SENSE OF WEL-COME

Walking, cycling or public transport

BY BIRTH & ANCESTRY

Does your country of birth or your ancestry change what you care about? 4

carefactor

THE 5 DIMENSIONS OF GREAT PLACES:

Places that attract people, and that they get emotionally attached to, are also places that are more resilient, sustainable and successful.

The 5 key place dimensions that contribute to our experience, and the most valued attributes in each category are noted here:

LOOK AND FUNCTION

- **52% / Ease of walking around** (including crossing the street, moving between destinations)
- 51% / Overall look and visual character of the
- 41% / Physical safety (paths, cars, lighting etc.)

SENSE OF WELCOME

- **62% / Sense of safety** (for all ages, genders, day/ night etc.)
- 61% / Walking, cycling or public transport options
- 38% / Welcoming to all people

THINGS TO DO

- **49%** / **Spaces suitable for specific activities** (play, entertainment, exercise etc.)
- 48% / Walking paths that connect to other places
- 36% / Free and comfortable group seating

UNIQUENESS

- **59% / Elements of the natural environment** (views, vegetation, topography, water etc.)
- 44% / Local history, heritage buildings or features
- 43% / Landmarks, special features or meeting places

CARE

- 66% / Cleanliness of public space
- 56% / Maintenance of public places and street furniture
- 38% / General condition of vegetation, street trees and other planting

INTERESTING FACTS

- Residents and workers value 'Cleanliness of public space' significantly more than students and visitors
- Respondents of Australasian ancestry value 'Cleanliness of public space' significantly lower than those of Asian and European ancestry
- Males value 'Walking, cycling or public transport options' significantly higher than females
- Respondents of Asian ancestry value 'Sense of safety' and 'Physical safety' significantly higher than respondents of Australasian and European ancestry
- Visitors and workers value 'Walking paths that connect to other places' significantly higher than residents and students
- Respondents of Australasian ancestry value 'Maintenance of public places and street furniture' significantly higher than respondents of Asian and European ancestry

WHAT WE DON'T CARE ABOUT SO MUCH

The lowest rated attributes across all 50 criteria are seen by the community to contribute least to their enjoyment of town centres, main streets and malls:

5% / Shop window dressing (visual merchandising)

5% / Diversity of price points / a range of price options

7% / Evidence of recent private investment (new buildings, painting etc.)

7% / Street furniture (including benches, bins, lights etc.)

11% / Buildings and shop fronts

Notes about research data:

- ¹ Respondents were asked to prioritise the top three attributes that contribute to making a place enjoyable per category. Percentages indicate the proportion of the overall dataset that selected the attribute as one of their top three.
- ²This report only includes 100% completed surveys (compulsory questions only).
- $^{\rm 3}$ Respondents were permitted to select more than one 'identity' response.
- ⁴ In the event that an attribute has an equal top percentage, an asterisk (*) is featured and the attribute that is first in alphabetical order is listed only.
- 5 Groups of <5 respondents are not reported in the matrix due to the inconclusive size of the dataset. Groups with <10 respondents are highlighted grey to indicate a small dataset.

carefactor

CARE FACTOR MATRIX

The unique feature of Care Factor is that it allows you to clearly see where your community aligns and where it conflicts regarding place experience values in local centres, main streets and malls. The following tables provide a full demographic breakdown of the top 10 Care Factor results as they compare with each group's top three attributes ⁵.

		results as triey compare with each group's top timee attributes.									LEGEND
