ABOUT CARE FACTOR

Care Factor lets your community identify what is most important to them about their local centres, main streets and malls. By quantifying the attributes that are most valued by your community and its sub-groups, you are able to plan improvement investment more effectively and measure change over time.

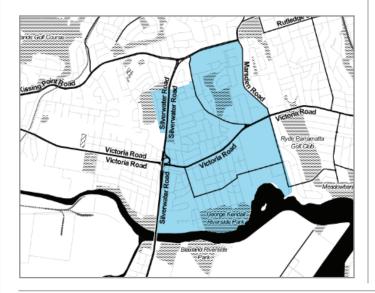

METHODOLOGY

Participants were asked to complete an online survey rating the attributes of local centres, main streets and malls in terms of their positive contribution to their personal experience of these types of places. This report captures the findings of the survey and presents how your community is aligned and where values may differ between groups.

ERMINGTON & MELROSE APRK

CITY OF PARRAMATTA, NSW, AUSTRALIA

Ermington & Melrose Park are located in the Parramatta LGA and have a total population of over 9,000.

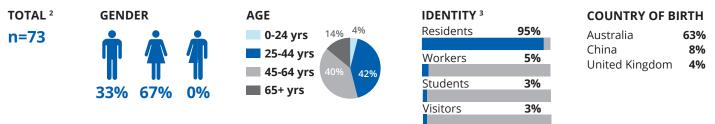

WHAT WE CARE ABOUT

Across the five categories of place, your community ranks these as their top ten attributes contributing to positive place experience:

| RANK | ATTRIBUTE | % OF PEOPLE ¹ |
|-------------|---|--------------------------|
| #1 | Cleanliness of public space | CARE 68% |
| #2 | Maintenance of public places and street furniture | CARE 62% |
| #3 | Sense of safety (for all ages, genders, day/night etc.) | SENSE OF WELCOME |
| #4 | Elements of the natural environment (views, vegetation, topography, water etc.) | |
| #5 EQUAL | Overall look and visual character of the area | LOOK & FUNCTION |
| #5 EQUAL | Walking, cycling or public transport options | SENSE OF WELCOME |
| #7 EQUAL | Car accessibility and parking | SENSE OF WELCOME |
| #7 EQUAL | Walking paths that connect to other places | THINGS TO DO |
| #9 EQUAL | Interesting things to look at (people, shops, views etc.) | THINGS TO DO |
| #9 EQUAL | Local history, heritage buildings or features | |

ABOUT YOUR DATASET

Data was collected via online surveys during the period 1 June - 16 June 2016. A total of 85 participated with 73 completing all questions (86% completion rate).

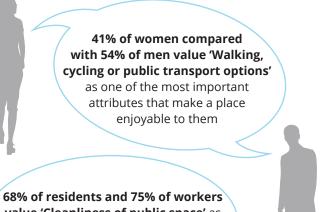

Place Score is the world's first dedicated Place Experience (PX) diagnostic, engagement, benchmarking and tracking tool. Find out more at www.placescore.org

ERMINGTON & MELROSE PARK CITY OF PARRAMATTA, NSW, AUSTRALIA

THE 5 DIMENSIONS OF GREAT PLACES:

Places that attract people, and that they get emotionally attached to, are also places that are more resilient, sustainable and successful.

The 5 key place dimensions that contribute to our experience, and the most valued attributes in each category are noted here:

LOOK AND FUNCTION

- 45% / Overall look and visual character of the area
- 41% / Physical safety (paths, cars, lighting etc.)
- 40% / Ease of walking around (including crossing the street, moving between destinations)

SENSE OF WELCOME

60% / Sense of safety (for all ages, genders, day/ night etc.)

45% / Walking, cycling or public transport options

44% / Car accessibility and parking

THINGS TO DO

44% / Walking paths that connect to other places

42% / Interesting things to look at (people, shops, views etc.)

37% / Outdoor restaurant, cafe and/or bar seating

UNIQUENESS

59% / Elements of the natural environment (views, vegetation, topography, water etc.)

42% / Local history, heritage buildings or features

34% / A cluster of similar businesses (food, cultural traders, fashion etc.)

CARE

68% / Cleanliness of public space

62% / Maintenance of public places and street furniture

40% / General condition of businesses and shopfronts

INTERESTING FACTS

- All demographic groups across gender, age, country of birth, ancestry and identity identified 'Cleanliness of public space' as one of their top three rated attributes with a percentage of 59% or higher across the dataset
- · Males value 'Cleanliness of public space' and 'Maintenance of public places' significantly higher than females
- The older the respondent, the more likely they are to value 'Sense of safety'
- Respondents of Australasian and European ancestry value 'Maintenance of public places and street furniture' significantly higher than respondents of Asian ancestry
- Respondents of Asian ancestry value 'Sense of safety' significantly higher than respondents of Australasian and European ancestry
- Respondents aged 55-64 value 'Elements of the natural environment' significantly higher than respondents aged under 55
- Respondents of Asian ancestry identified 'Free and comfortable places to sit alone' as their third highest attribute with a percentage of 64%, whilst it did not appear in the top ten rated attributes amongst respondents of European and Australasian ancestry

WHAT WE DON'T CARE **ABOUT SO MUCH**

The lowest rated attributes across all 50 criteria are seen by the community to contribute least to their enjoyment of town centres, main streets and malls:

3% / Evidence of recent private investment (new buildings, painting etc.)

4% / Shop window dressing (visual merchandising)

8% / Diversity of price points / a range of price

11% / Culturally diverse businesses (range of ethnicities and interests etc.)

11% / Evidence of recent private investment (new buildings, painting etc.)

Respondents were asked to prioritise the top three attributes that contribute to making a place enjoyable per category. Percentages indicate the proportion of the overall dataset that selected the attribute as one of their top three.

- ² This report only includes 100% completed surveys (compulsory questions only).
- ³ Respondents were permitted to select more than one 'identity' response

⁴ In the event that an attribute has an equal top percentage, an asterisk (*) is featured and the attribute that is first in alphabetical order is listed only.

⁵ Groups of <5 respondents are not reported in the matrix due to the inconclusive size of the dataset. Groups with <10 respondents are highlighted grey to indicate a small dataset.
