

# Installation of traffic signals at the intersection of North Rocks Road and Alkira Road, Carlingford

City of Parramatta is proposing to install traffic signals at the intersection of North Rocks Road and Alkira Road, Carlingford. The purpose of this proposal is to improve road safety.

The below works are proposed as part of the new traffic signals:

- Controlled pedestrian crossings on each leg of the intersection.
- Widening of a 140m section of North Rocks Road, on the south side of the road, to accommodate a dedicated right turn lane.
- Widening of Alkira Road and the installation of a concrete median island to separate southbound and northbound traffic.
- Relocation of existing underground services, replacement of existing power poles, and undergrounding of power lines to accommodate the additional travel lane.
- Construction of a new 140m long x 2.5m wide footpath and an associated 110m long retaining wall behind the realigned kerb on the southern side of North Rocks Road.
- Removal of six (6) trees to accommodate road widening and relocation of services.
- Removal of the existing mid-block signalised pedestrian crossing
- Installation of pedestrian fences to guide pedestrians to the new traffic signals at Alkira Road.

The plan below shows the works as detailed above.
