

PRECEDENT IMAGES - INDICATIVE ONLY

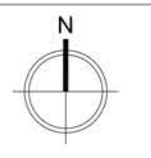

- KEY DESIGN ELEMENTS**
- 1 Retention of multiple entry points with new double gates for improved dog safety
  - 2 Vehicle gate entries for maintenance and service authority vehicles
  - 3 New seating placed on oversized concrete pads throughout the dog park. Seats located in areas of winter sun and summer shade
  - 4 Proposed (x2) drinking fountains with dog bowls
  - 5 Boundary buffer planting adjoining property fence line to limit dogs within the park interacting with dogs in private property. Access to gates to remain clear of planting

- 6 Retention of existing tree stump to encourage and support habitat for local fauna species
- 7 Retain and protect existing trees
- 8 Extensive new tree planting to provide shade with groundcover native plantings to improve park amenity
- 9 Improved pedestrian access from the northern entrance (Lomond Crescent)
- 10 Double gate and widened entry at Glasgow Street

- 11 Improved pedestrian access from Barnett's Road
- 12 Proposed concrete circuit path to encourage social walks along a designated path alignment within the centre of the park
- 13 Proposed dog agility equipment
- 14 Proposed turf improvement works
