

Delivery Program 2022-26, Operational Plan & Budget 2023/24

Part 5: Financial Information

INTRODUCTION

FINANCIAL MANAGEMENT FRAMEWORK

Ensuring financial sustainability underpins Council's financial planning. Council aims to ensure its net operating position is in surplus over the medium to long term through the prudent management of Council's revenue, expenses, assets, liabilities, and insurance.

In 2023/24, Council is budgeting for a surplus Net Operating Result (before capital grants & contributions, and loss/gain on asset disposals), primarily on the assumption of:

- IPART approved Rate peg @ 3.7%
- Uptick in Interest income based on current investment outlook and
- operationalisation of the new Parramatta Aquatic Centre.

Council forecasts to have continued net underlying operating surplus over the medium to long term.

PROCESS FOR ESTABLISHING AND UPDATING THE BUDGET FOR 2023/24

Under the Local Government Act 1993 and related regulations and guidelines, an Operational Plan is required to be released for public exhibition and subsequent adoption by Council, in order to issue annual council rates notices to ratepayers by first of August.

The budget has been based on the priorities and objectives adopted for the City of Parramatta through council's internal and external consultation processes.

BUDGET HEADLINES

Council is budgeting for Operating Revenues of \$330.3m (excluding Capital grants and contributions of \$125.3m), with \$220.6m coming from rates and annual charges. Operating expenses are budgeted at \$327.7m, resulting in a surplus of \$2.6m as net underlying operating result.

In 2023/24, the budget provides funding for strategic priorities identified in the operational plan including:

- a capital works program of \$286.9m
- IPART rate pegging at 3.7%.
- Uptick in interest income based on current investment outlook
- the impact of soon to be operational new Parramatta Aquatic Centre

RESTRICTIONS ON REVENUE

Local Government is restricted in its capacity to raise revenue to fund Community services. The primary sources of revenue are rates and annual charges. In 2023/24, Council will derive 48.0% of total revenue from ordinary rates and annual charges.

Full details of rates to apply in 2023/24 are outlined under Rates and Charges.

STATEMENT OF REVENUE POLICY - Incorporating the Statement of Fees & Charges 2023-24

The map below depicts the City of Parramatta Local Government Area by Ward.

RATES & CHARGES

The principle of Council rating is to levy properties within the Local Government Area to recover the cost of providing local government services to those properties. Rates and Charges are the Council's main source of recurrent income and are used to maintain infrastructure and deliver services and facilities for the community.

Annual rate increases are determined by the Independent Pricing and Regulatory Tribunal (IPART) each year and sets the maximum general income Council can collect from ordinary rates. General income comprises income from ordinary rates and special rates but does not include income from Waste Management charges, Water and Sewerage services, Usage charges or Stormwater Management Service Charges.

The Local Government Act 1993 states that all rateable properties are to be categorised into one of four categories of ordinary rates:

- Residential
- Business
- Farmland (not applicable in the City of Parramatta LGA)
- Mining (not applicable in the City of Parramatta LGA)

Properties that are subject to Mixed Development Apportionment Factors (MDAF) as supplied by the Valuer-General are rated part Residential and part Business based on the MDAF percentage. Properties that are nor granted a MDAF are categorised according to the dominant use of the property.

The Rates for 2023/24 will be calculated on land values with a base date of 1 July 2022. This will be the first year the 1 July 2022 base date will be used to calculate rates.

RATE PEGGING

The NSW Government introduced rate pegging in 1976. Rate pegging limits the amount that Councils can increase their rate revenue from one year to the next. The percentage limit is determined by the IPART.

For the 2023/24 rating year IPART has announced the limit by which Council's general rates income may be varied at 3.7%. General income does not include income from Waste Management charges and Stormwater Management Service charges.

IPART changed the rate peg formula to include a population factor percentage. If our LGA population growth percentage exceeded Council's percentage growth in supplementary valuations income, then Council would receive the difference in addition to the rate peg. We did not receive any addition to the rate peg percentage for the 2023/24 rating year.

But over the previous 10-year period, Council has received rate peg increases between 1.5% and 3.4%.

LAND VALUATIONS

Rates are calculated on the land value of a property multiplied by an adopted 'rate-in-the-dollar'. If the calculated rate is below the minimum rate, the minimum rate applies. The land value is determined by the NSW Valuer General who issues a Notice of Valuation at least every three years.

Council cannot make and levy a rate in respect of a parcel of land unless the Council has been furnished with a valuation in accordance with the *Valuation of Land Act 1916*. The NSW Valuer General issues valuations in accordance with that Act.

Revaluations are undertaken every three years by the NSW Valuer General – an increase or decrease in valuation does not have an impact on the overall general rates income that Council can raise but it does determine how much you pay in rates relative to every other ratepayer.

The land value used in NSW is the Unimproved Value (UV) of the land and does not include the value of the home or other structures on the land.

RATING STRUCTURE

The Local Government Act 1993 (the Act) sets out the methodology by which a council can collect its rates income.

According to the Act, the Council's rating structure may consist of:

- an 'ad valorem' amount which may be subject to a minimum, or
- a base amount to which an ad valorem amount is added.

Ad Valorem

An ad valorem amount is a variable charge set as a proportion of the unimproved land value of the rateable property – that is, the value of the property without any buildings, houses, or other capital investments.

Minimum amount

The decision as to whether a council will or will not use minimum rates is entirely left to the discretion of each council. If a council resolves to specify one or more minimum amounts of a rate in accordance with section 548(3)(a) of the Act, the size of any minimum amount must not exceed the relevant permissible limits provided for in the Act and Section 126 of the Local Government (General) Regulation 2021 unless special Ministerial approval for a higher amount has been granted.

SPECIAL RATES

Special rates are not levied by City of Parramatta. Special rates were levied but have since been discontinued due to rates harmonisation.

OTHER SPECIFIC RATING ISSUES

Upon registration of a new strata plan or deposited plan, Council will re-rate the property(s) from the date of the new strata plan or deposited plan registration.

Aggregation of rates in accordance with Section 548A of the Act may apply in the following situation – for all the lots categorised as Residential or Business on a minimum for rating purposes, one separately titled car space and one separately tilted utility lot that is within the same building or strata plan may apply. All aggregations will apply from the commencement of the quarter following the lodgement of the application with Council. An application fee applies to all the applications for aggregation.

POSTPONEMENT OF RATES

Where a property is used as a single dwelling but because of zoning or permitted use has a land value that reflects the potential use of the land rather than the actual use, Council will provide a postponement of rates in accordance with Section 591 of the Local Government Act 1993.

NON-RATEABILITY

Council will determine land to be non-rateable strictly in accordance with Sections 555 and 556 of the Local Government Act 1993 or the Local Government (General) Regulation 2021.

RATE REDUCTION FOR ELIGIBLE PENSIONERS

All NSW councils provide a mandatory rebate of up to \$250 to eligible pensioners. The former Parramatta City Council is one of the few Councils that granted an additional voluntary rebate of up to \$100 to eligible pensioners in addition to the mandatory rebate. This has now been extended to encompass all areas that now fall within the proclaimed City of Parramatta Council.

Council provides for rate reductions to eligible pensioners under Section 575 of the Local Government Act 1993. In accordance with Section 575(3) (a) of the Act, Council must provide a rate reduction of 50% of the amount of the rate levy, to a maximum rebate for combined general rate and domestic waste management charges of \$250.

PAYMENT OF RATES

Ratepayers may pay their rates in four instalments by 31 August, 30 November, 28 February and 31 May respectively. Council is obliged to forward reminder notices one month in advance of those due dates.

During the year an additional (supplementary) rate levy and rate notice may be issued which may affect the amount of rates and charges levied on some parcels of land. The rates and charges are apportioned over the remaining instalments due after the supplementary levy is applied.

CHARGES ON OVERDUE RATES

Interest accrues daily on rates and charges that remain unpaid after they are due and payable. Council will apply the maximum interest allowable pursuant to Section 566 of the Act which is determined by the Minister of Local Government each year. In accordance with section 566(3) of the Act the interest rate for 2023/24 will be 9% per annum and will be charged from 1 July 2023.

GENERAL RATING INFORMATION - 2023/2024 RATES & CHARGES

At a rate peg of 3.7% for 2023/24 the following will apply:

The estimated rate income for 2023/24 totals \$170,920,406 reflective of the rate peg and other mandatory adjustments as per the following table:

Туре	Category/Subcategory	Number	Ad Valorem Rate	Minimum Rate \$	Estimated Rate Income \$
Ordinary	Residential	100,409	0.00104662	752.00	105,795,754

	Total Rates Income CoP including Council Owned Properties				171,175,622
	Rates Income from Council Properties – Internal Revenue				255,216
	Total Rates Income CoP excluding Council Owned Properties				170,920,406

STORMWATER MANAGEMENT SERVICES ANNUAL CHARGE

In accordance with the Local Government Amendment (Stormwater) Act 2005 a Stormwater Management Service Charge (SMSC) is levied on all parcels of rateable urban land within the City of Parramatta - categorised for rating purposes as Residential or Business (including all sub-categories) - not being vacant land or land owned by the Crown or land held under lease for private purposes under the Housing Act 2001 or the Aboriginal Housing Act 1998.

Council administers a comprehensive waterways management program. As the principal authority responsible for the management of stormwater, Council:

- maintains over 400 km of stormwater discharge drainage pipes for stormwater conveyance
- implements essential flood mitigation measures to protect life, property, and infrastructure
- conserves the natural waterways of our city
- protects bushland and other natural assets from the impacts of urban run-off by implementing purpose-built pollution control traps and water retention systems.

The SMSC helps council fund these important programs. The following table provide details of the charges.

Category	Property Type	Charge	Estimated Yield \$
Residential	All parcels of rateable urban land categorised as Residential or Residential CBD excluding Strata	\$25.00	1,006,125

	properties		
Residential	All strata properties categorised as Residential or	\$12.50	730,062

SECTION 611 CHARGES

Section 611 of the Local Government Act 1993 provides that Council may make charges on persons for the time being in possession, occupation or enjoyment of a rail, pipe, wire, pole, cable, tunnel, or structure laid, erected, suspended, constructed, or placed on, under or over a public place.

Where applicable such charges will be made in 2023/24 and will be based on the nature and extent of the benefit enjoyed by the person(s) or entities concerned.

FEES AND OTHER CHARGES

Please see the separate fees and charges document for the fees and other charges to be charged for goods and services in 2023/24. This document also includes the pricing methodology used to determine those fees and charges.
