Win/Loss Record

Please note the below relates to Class 1 appeals and Council prosecutions (Local Court and Class 4 proceedings) only. The total case number only relates to matters determined by the Court in that financial year and does not relate the actual number of Land and Environment Court/Local Court matters received in that financial year. For Class 1 appeals, the Wins record includes appeals resolved as a result of a section 34 conciliated agreement being entered into between the parties due to the Applicant amending their application to resolve the issues the subject of the appeal.

Land and Environment Court – Class 1 Appeals

Financial Year	Total Cases	Wins	Losses	Comments
23/24	34	24	3	Eighteen (18) of the appeals won were subject to s34 agreements with amended documents.

Land and Environment Court – Class 4 Prosecutions

Definitions and notes:

- A section 34 conciliation conference is presided over by a Commissioner of the Land and Environment Court and explores options for the parties to resolve the appeal or narrow the issues.
- Section 34AA proceedings provides a fast appeal system for a limited range of residential development, which is presided over by a Commissioner of the Land and Environmental Court. If the parties do not reach an agreement onsite, the Commissioner will make a determination at a hearing.
- A section 56A appeal may be made to a judge against a Commissioner's decision but this can only be a point of law and not about the merits of the development.
- Court elected means that the recipient of a Penalty Infringement Notice (PIN) issued by Council officers for breach of the law elects that the Local Court determine the alleged offence and the amount of fine, if any.
- Prospects' advice is given on the basis of the evidence at the time the opinion is provided. Litigation is a highly uncertain activity, so "good" or "fair" prospects advice does not mean there is certainty in an outcome favorable to Council, just that Council is likely to be successful based on legal advice. For planning matters (Class 1 development application appeals) matters, where a legal matter state there are "good prospects" it means that Council is confident in its decision to decline a development application based on legal advice, but this may vary over time as the applicant amends plans and issues raised by Council are appropriately addressed. For regulatory (Local Court) matters, Council will generally not proceed with a penalty notice unless Council has legal advice that it has "good prospects" of a successful outcome, otherwise Council will withdraw the penalty notice. For other ongoing litigated matters, as litigation is inherently uncertain, prospects may change as a matter progresses, given that proceedings can take between 6 to 18 months to get to a final hearing and judgment. Prospects are generally described as "fair". If a legal matter has poor prospects of success, then Council will attempt to resolve the matter as soon as possible.

- A Fee Estimate is the total fees estimated to be incurred, from the commencement of the appeal until the conclusion of a final judgement. This estimate is set by Council's external lawyers and any external experts required to be briefed.
- Appeals to the District Court may be made against the severity of penalty imposed by Local Court magistrate in response to Court Elected Penalty Infringement Notices or in relation to civil proceedings against Council. For example, civil liability proceedings that are managed by Council's insurers.
- NSW Civil and Administrative Tribunal (NCAT) matters are proceedings involving administrative reviews in relation to the actions of Council.
- A judicial review appeal may be made to the Land and Environment Court seeking a declaration that a development consent issued by the Council is invalid.
- Local Court civil proceedings generally relate to debt recovery matters where Council is pursuing unpaid rates.
